Look for us on Facebook.
Barn Yard Babies is an event hosted by the Agriculture Hall of Fame that brings agriculture and farming along with livestock to the general public. What a great opportunity to partner with our community and show off what we do in 4-H! The planning committee for Barnyard Babies has invited us to take part in a new addition to Barnyard Babies this year. Leavenworth County 4-H has lent a helping hand during this event for several years and they wanted to recognize us by going a step further and creating our own exhibition area at Barnyard Babies where the public can find all things 4-H. This new 4-H Zone will be a chance for our clubs to conduct fundraiser and our 4-Hers to show off their 4-H projects. This is where I need your help. I need 4-Hers to sign up to do a project display of all their hard work. What a great way to show off your talents to our community and at the same time get a check mark or two for your record books. There will be an interest form coming out through email in the next week or two. If you are interested in participating, please fill out that form. This event is open to whole clubs participating down to individual 4-Hers and everything in between.

Congratulations to the Leavenworth County 4-H Horse Panorama Participants!

A quick note from your 4-H Youth Development Agent:

County Fair is closer than we think! It is hard to believe that the Leavenworth County Fair is only a short 163 days away. Yikes!! As you hopefully start working on projects and involving yourself in project learning, please remember to read all communications that come out regarding 4-H projects. The first place to start is with your project rules. These will be published soon on our website at levenworth.ksu.edu → 4-H Youth Development → 4-H Fair Book & Information. (An email will go out once they are ready to view) Once they are available, please take a few minutes to read the rules around your projects. There are also some big changes coming to our livestock world, so it is even more important to take time to read all communications and review the rules in these areas. As always, we are here to clarify or answer questions. We also have resources here in the office to help you with your projects if you are not sure where to begin.

Just give us a shout and we will help you get started.
