Exhibit Summary

(Do not attach additional pages to this summary)

This summary must be attached to the Home Environment exhibit whether single exhibit, poster, or notebook. The judge will consider application of home environment and design skills learned as noted on this summary sheet and demonstrated by the exhibit.

Name _____

1. What was the goal of your home environment project?

2. How does this exhibit relate to your project goals?
Describe how it fits into the total color and design scheme of the room.

3. How did you use color related to light, design, and color harmony in your project?

4. What did you learn about design principles through this project?

5. What new construction or design skills did you learn?

6. How much did your total project cost?

7. Who assisted you with this project and how did they help?

8. If you were to change anything about your home environment project, what would it be and why?

9. What plans do you have for future project experiences?

10. If this summary is attached to a single exhibit which you have made, describe how it was made, the cost, if original or from a kit, and attach a picture showing this exhibited article in place at home (use back if necessary).
